

Our Ref: KL/LK

30th March 2021

Dear Parents and Carers,

You will be aware that Year 10 students were due to take part in work experience during Term 6. In light of the Covid-19 crisis and the current national lockdown, it is clear that neither students nor local businesses will be in a position to participate in work experience placements and it is with regret that we have decided to cancel our planned work experience for Year 10. We will instead focus on ensuring that students are able to achieve the best results possible and ensuring that this difficult time does not have a long term impact upon them.

This decision has not been taken lightly and we are sure that parents and students will understand the context and reasons behind this decision. There are multiple virtual work experience opportunities that will be posted on the Year 10 Google Classroom for our students to be involved in and will offer an insight into a variety of industries.

If any parents would like to discuss this they should contact Mr Slinger Head of Year 10.

Yours faithfully,

Miss K Lemon
Associate Assistant Head
