

Dr Peter Devonish, Head of Year 7

“Hello to all of you and welcome to the Holyrood family. We are all really excited to welcome you to our school community.

Lots of different people have been planning to give you the very best start at Holyrood. There are around 260 pupils in Year 7; the largest number in the school and we have 9 tutor groups, each with a brilliant tutor who will be your most important day to day contact. I help your tutors to look after you as well as supporting them.

I am a Science teacher and my specialist subject is Chemistry. I also love Physics and Biology. I have been a teacher for over 30 years! I like swimming, learning to sail and gardening. I have two black Labradors who are brothers – I am a real dog fan!

At Holyrood we believe in the motto, ‘work hard, be kind, join in’. We have very high expectations because we want each and every one of you to do really well. We are all here to help you to succeed.

I look forward to seeing you very soon.”
